

Auto-Darkening Welding Helmet

The auto-darkening welding helmet protects the eyes and face from sparks, spatter, and harmful radiation during welding. Its auto-darkening filter (ADF) automatically darkens the lens when an arc is struck, providing instant protection.

Product Overview

Professional Protection

This auto-darkening welding helmet is engineered to safeguard the eyes and face against sparks, spatter, and harmful radiation during welding operations. Featuring an advanced auto-darkening filter (ADF), the lens reacts instantly when an arc is struck for seamless protection. Constructed from lightweight yet durable materials, it includes adjustable headgear to ensure a secure and comfortable fit during extended use.
