Product Overview

Reliable OEM Replacement

This hand brake cable is engineered to match the exact dimensions and performance standards of original equipment. Designed for durability, the inner cables are sheathed and lubricated to ensure smooth operation, while the construction features bird-caging before die-casting to maximize pull-off force. Its corrosion-resistant design provides long-lasting reliability, making it a dependable choice for vehicle maintenance.

Technical Specifications

Key Construction Features

- Corrosion-resistant outer casing
- Sheathed and lubricated inner cables
- Bird-caged inner wire design
- Die-cast end fittings

Quality Standards

OEM Matched Dimensions • Corrosion Resistant • High Pull-off Force

Vehicle Compatibility

CHEVROLET CORVETTE 1965-1982
