Product Overview

Automated Floor Cleaning Solution

This automated cleaning robot offers a comprehensive floor maintenance solution for professional environments. Designed with a slim profile and intelligent obstacle detection, it effectively navigates around furniture and avoids ledges while utilizing powerful cyclone inhalation to capture dust and debris. With multiple cleaning modes and remote control capabilities, it ensures consistent cleanliness across diverse surfaces including carpet, wood, and marble.

2.5 hours

Run-time

65 dB

Noise level

330 ml

Dust Bin Capacity

Technical Specifications

Electrical Requirements

Specification	Value
Voltage	14.4V DC
Power Consumption	24W
Battery Type	Ni-CD 2200mAh

Physical Dimensions

- Diameter: 34cm
- Height: 8.6cm
- Net Weight: 3.2kg
- Gross Weight: 5.0kg

Features

Key Capabilities

- Stair and ledge detection sensors
- Virtual wall barrier technology
- UV light bacterial reduction
- Automatic docking station return
- Time scheduling functionality

Operation Modes

Small (S), Medium (M), Large (L)
