Product Overview

Automated Glove Packaging Efficiency

This automated packaging machine is engineered to streamline the glove production workflow, offering high-speed, precise packaging capabilities. It supports versatile configurations, including 10-pair or 12-pair (dozen) packs, ensuring a consistent and professional presentation for every unit. Designed for durability and ease of use, the system incorporates advanced microcomputer control to minimize manual labor and maximize operational output.

Technical Specifications

Dimensions	58 x 22 x 66 cm
Weight	51 KG
Control System	Microcomputer Controller

Operational Features

Packaging Modes

- 10 pairs per pack
- 12 pairs per dozen

Key Features

Automated, High-speed feeding, Adjustable settings, Digital display, Seamless sealing
