Product Overview

Efficient Automated Peeling

This electric potato peeler is designed to streamline kitchen preparation, offering a hands-free solution for removing potato skins. With a compact design and an 85W motor, it efficiently handles up to 1kg of potatoes per cycle. The unit features a versatile dual-speed operation, allowing it to function as both a peeler and a salad spinner for added kitchen utility.

Technical Specifications

Power Consumption	85 W
Voltage Compatibility	110-127V, 220-240V
Frequency	50/60Hz

Performance

Processing Capacity

1 KG
Max Capacity

Operating Modes

- Low Speed (Salad Spinner)
- High Speed (Potato Peeling)

Design & Safety

Safety Features

See-through lockable lid • Rubber feet for stability • Safety interlock
