

Automated Production Line System

This automated production line system streamlines manufacturing processes. It includes components such as GD75 X 2.5, GD110 X 3.2, and GD169 X 4.0.

Product Overview

Automated Production Line Components

This automated production line system features high-quality, precision-engineered components designed for industrial assembly environments. The system includes robust, standardized piping and structural elements available in three distinct size configurations. These components are built for durability and consistent performance in demanding manufacturing workflows.

Technical Specifications

Component Size Chart

Specification	Outer Diameter (mm)	Wall Thickness (mm)	Length (mm)
GD75 X 2.5	75	2.5	4000
GD110 X 3.2	110	3.2	4000
GD169 X 4.0	160	4	4000

Standard Length	4000 mm
