

# Automatic Battery Charger and Maintainer

Automatic charger quickly charges and maintains various battery types. It features multiple charging modes, fault indication, and a power indicator for efficient and safe battery charging.

## Product Overview

### Professional Battery Charging Solution

This automatic battery charger and maintainer is designed for efficient and safe battery care. It features versatile charging modes, including quick charge and float maintenance, to ensure optimal battery health. With intuitive fault and power indicators, this device provides a reliable solution for various battery types.

## Technical Specifications

### Selectable Current

- 1 Amp
- 4 Amp
- 5 Amp

### Charging Modes

Quick Charger, Float Mode, Automatic

## Indicators and Safety

### Status Indicators

Power Indicator • Fault Indicator • Float Mode Active
