

Automatic Board Shrink Wrapping Machine

This automatic machine is designed for efficient shrink wrapping of various board sizes. It features adjustable conveyor speed and temperature control to ensure tight, secure packaging.

Product Overview

Industrial Board Shrink Packaging Solution

This automatic shrink wrapping machine is specifically engineered for large, flat items such as door panels and glass sheets. Featuring a high-power motor and advanced internal circulation fans, the system ensures uniform heat distribution within the shrink chamber for consistent, high-quality packaging results. Designed for industrial efficiency, the unit includes non-powered conveyor platforms at the entry and exit points to streamline operator workflow.

Technical Specifications

Voltage	380 V
Power Consumption	27 KW
Maximum Load Capacity	100 kg
Conveyor Speed	0 - 10 m/min

Dimensions & Weight

Furnace Size (LxWxH)	1900 x 1200 x 200 mm
Overall Dimensions (LxWxH)	3100 x 1400 x 1200 mm
Machine Weight	500 kg

Features

Key Features

- High-power internal circulation fans for uniform shrinking
- Designed for large flat items like door panels and glass
- Non-powered conveyor platforms for convenient operation
- Compatible with various film types
