

Automatic Bobbin Winding Machine

This machine is designed for winding yarn onto bobbins automatically. It features two spindles that can wind two thread clews at the same time, enhancing productivity.

Product Overview

Efficient Bobbin Winding Solution

This automatic bobbin winding machine is engineered for precision and productivity in textile operations. Featuring a dual-spindle design, it allows operators to wind two thread clews simultaneously, significantly enhancing output. The system offers versatile control over bobbin length, thickness, and shape, ensuring consistent quality across various production requirements.

Technical Performance

Rotating Speed

1400 r/min
Rotating Speed

Working Speed

4 kg/12h

Electrical Specifications

Power Consumption

250 W

Power Supply

380V

Operational Features

Compatible Bobbin Sizes

6# ~ 10#

Spindle Configuration

Dual Spindles

Compliance & Standards

Certifications

CE, ISO, IAF
