

Automatic Bread Maker with Fruit and Nut Dispenser

This automatic bread maker can produce up to a 2lb loaf of bread. It features an automatic dispenser for fruit and nuts, multiple pre-programmed settings, crust control, and a timer for delayed baking.

Product Overview

Professional-Grade Home Baking

This versatile automatic bread maker is designed to simplify the baking process while delivering bakery-quality results. Featuring a robust stainless steel exterior and a non-stick baking pan, it ensures durability and easy cleaning. With 14 pre-programmed settings and an integrated fruit and nut dispenser, this appliance accommodates a wide range of recipes, from gluten-free loaves to homemade jams.
