

Automatic Carton Forming and Sealing Machine

This machine automates the forming, folding, and sealing of cardboard cartons. It features adjustable settings to accommodate various carton sizes and shapes, making it suitable for diverse packaging needs.

Overview

High-Efficiency Automatic Carton Processing

This automatic carton forming and sealing machine utilizes advanced international technologies to provide a reliable solution for high-volume packaging environments. It features a vertical carton storage mode that allows for continuous feeding without stopping the machine, significantly improving operational uptime. Designed for versatility, the system handles carton shaping, bottom folding, and sealing in a single concurrent process with high precision and stability.

Performance Metrics

Key Performance Metrics

12 cartons/min

Max Opening Speed

2000 W

Power Requirement

450 kg

Machine Weight

Technical Specifications

Applicable Carton Dimensions

Dimension	Range (mm)
Length	250 - 450
Width	150 - 400
Height	100 - 400

Model	WP-CS
Carton Inventory Capacity	1000 mm

Operational Requirements

Pneumatic Requirements

- Air Pressure: 6Kg/cm³
- Air Consumption: 450NL/min

Compatible Tape Sizes

48mm, 60mm, 75mm

Power Supply

220V / 50(60)Hz

Design & Safety

Safety & Construction

- Plexiglass protection cap to prevent operational accidents
- Vertical carton paper storage for non-stop feeding
- Compact volume with precise, durable parts
- Vibration-free stable running
- Manual adjustment for size changes (1-2 minutes)

Machine Dimensions (L*W*H)

2000 * 1900 * 1450 mm
