Overview

Automated Carton Finishing Solution

This automatic carton top flap folder and sealer is designed to streamline packaging operations by automating the folding and sealing process. It features adjustable settings to accommodate a wide range of carton dimensions, making it suitable for versatile high-volume packaging environments. The system ensures consistent, secure closure while reducing manual labor and improving overall production efficiency.

Technical Specifications

Maximum Carton Size (L*W*H)	600*500*500mm
Minimum Carton Size (L*W*H)	200*150*150mm
Compatible Tape Sizes	48mm, 60mm, 75mm

Performance

Conveying Speed

20 m/min
Max Speed

Electrical & Pneumatic

Power Requirements	400W, 220/380V, 50/60Hz
Operating Air Pressure	6 Kg/cm ²

Physical Dimensions

Machine Dimensions (L*W*H)	1770*850*1520mm
