Product Overview

Comprehensive Cashew Processing Solution

This fully automatic cashew nut processing line is designed to handle the entire production cycle from raw nut classification to final roasting. It integrates advanced shelling, peeling, and separation technologies to ensure high productivity with minimal manual intervention. Ideal for industrial-scale operations, the system focuses on maintaining kernel quality while maximizing yield through precise automated control.

System Components

Included Machinery

- Cashew nut classifier
- Cooking machine
- Steam boiler
- Elevator
- Cashew nut shelling machine
- Kernel and shell separator machine
- Cashew peeling machine
- Cashew nut roasting machine

Process Workflow

Key Processing Stages

Classification, Cooking, Shelling, Separation, Peeling, Roasting

Technical Features

Automation Level

Full Automatic • Industrial Grade

Operational Benefits

- High productivity yield
- Minimal manual labor requirements
- Precise automated control
- Reduced labor costs

Material

Stainless steel construction for hygiene and durability

Service & Support

Warranty

1 Year

Standard Guarantee

Maintenance & Support

The processing line comes with a one-year guarantee and lifelong maintenance support. Technical support is provided for the duration of the machine's service life. In the event of design-related defects within the warranty period, replacement parts are provided free of charge.
