

Automatic Drip Coffee Maker with Programmable Timer

This automatic drip coffee maker features a programmable timer for scheduled brewing and a carafe for serving. It is designed for home or office use and brews coffee by heating water and filtering it through ground coffee beans.

Product Overview

Professional Brewing Performance

This automatic drip coffee maker is engineered for both home and office environments, offering a reliable solution for daily coffee needs. Featuring an intuitive programmable timer, it allows users to schedule brewing in advance for a fresh cup upon waking or starting the workday. The robust design integrates a high-efficiency heating element and a precise water reservoir system, ensuring consistent extraction and quality flavor in every brew.
