

Automatic Dusk-to-Dawn LED Night Light

This automatic LED night light provides a soft, ambient glow in dark environments. Featuring a built-in dusk-to-dawn sensor, it automatically turns on at dusk and off at dawn, offering convenience and energy efficiency.

Overview

Automatic Dusk-to-Dawn LED Night Light

This automatic LED night light provides a soft, ambient glow in dark environments, making it an ideal safety solution for hallways, bedrooms, and bathrooms. Featuring an intelligent built-in dusk-to-dawn sensor, the unit automatically activates at dusk and powers off at dawn to maximize energy efficiency. Its compact, plug-in design fits directly into standard AC outlets, ensuring long-lasting performance with minimal power consumption.

Technical Specifications

Light Source	LED
Sensor Type	Dusk-to-dawn (Automatic)

Design & Build

Housing Material	White plastic
Lens Design	Textured lens for even light diffusion
