Overview

High-Efficiency Vacuum Packaging Solution

This fully automatic food vacuum packaging machine is engineered for precision and high-performance in food processing environments. It features an integrated system that handles bag forming, filling, and vacuum sealing in a continuous, automated process. Constructed from durable stainless steel, the machine ensures hygiene and ease of maintenance, making it suitable for a wide range of food applications including meat, poultry, and processed goods.

Technical Specifications

Bag Size Range

| Dimension | Range |
|-----------|----------|
| Width | 55-130mm |
| Length | 80-180mm |

| | |
|-------|----------|
| Model | MRZK-130 |
|-------|----------|

Key Features

ECHO
ECHO FOOD EQUIPMENT

The machine features a user-friendly touchscreen control panel for precise operation and parameter adjustment.

ECHO
ECHO FOOD EQUIPMENT

The main sections are constructed from stainless steel to ensure excellent durability and hygiene standards.

Build Material

Stainless Steel • Washable Zones

Automation Technology

- Micro-computer control system
- Graphic touch panel interface
- Motorized gripper width adjustment
- Programmable Logic Controller (PLC) integration

Performance

ECHO
ECHO FOOD EQUIPMENT

Integrated multi-head weigher and vacuum sealing system designed for high-volume production.

Operational Metrics

120 bags/min

Max Speed
