

Automatic Hand Dryer for Commercial Restrooms

This automatic hand dryer provides touch-free operation for hygienic use in restrooms. It offers rapid hand drying with adjustable temperature and airflow settings.

Product Overview

Professional Commercial Hand Dryer

This high-performance automatic hand dryer is engineered for durability and hygiene in demanding commercial environments. Featuring a sleek aluminum alloy construction with a chrome finish, it combines aesthetic appeal with robust functionality. Users benefit from rapid drying times of 8-12 seconds, adjustable temperature settings, and added features like an integrated anion generator and perfume holder for a fresher restroom experience.
