

# Automatic Hand Dryer

This is an automatic hand dryer designed for wall mounting in restrooms. It uses a sensor to activate when hands are placed underneath, providing touch-free operation.

## Product Overview

### Automatic Hand Dryer

This automatic hand dryer is designed to provide efficient and hygienic hand drying solutions for commercial restrooms. Engineered for reliability, it offers a touchless experience that helps maintain sanitary standards in high-traffic environments. Its robust construction ensures long-term durability, making it an ideal choice for offices, public facilities, and industrial settings.

## Technical Specifications
