

# Automatic Liquid Filling Machine

This automatic liquid filling machine integrates washing, filling, and capping functions. It is used for filling various non-carbonated liquids like mineral water, juice, and wine.

## ADDITIONAL IMAGES

## Overview

### High-Efficiency Automatic Liquid Filling Solution

This automatic liquid filling machine is a multi-functional unit that integrates washing, filling, and capping into a single streamlined process. Designed for high-speed production, it is ideal for non-carbonated liquids such as mineral water, pure water, fruit juices, and oils. The robust stainless steel construction ensures durability and high hygiene standards for professional bottling plants.

## Technical Capabilities

### Compatible Liquids

- Mineral Water
- Pure Water
- Fruit Juice
- Edible Oil
- Vinegar
- Wine
- Fruit Wine

### Integrated Functions

Washing, Filling, Capping, Sealing

## Model Specifications

### Available Models

#### Model Series

CGF16126

CGF18186

CGF24248

CGF323210

CGF404012

CGF505012

CGF606015

## Design & Construction

### Control System

PLC Controlled

### Key Features

- Full-automatic operation
- Adjustable fill volume
- Adjustable capping torque
- Synchronized conveyor system
- Precision filling nozzles

### Construction Material

Stainless Steel

## Safety & Maintenance

### Safety Systems

- Emergency stop buttons
- Protective enclosures
- Safety interlocks
- Automated cleaning system
