

# Automatic Lubricant and Blend Oil Filling Machine

This automatic filling machine is designed for blend and lubricant oil packaging. It features multiple filling heads, a conveyor system, and a control panel for adjusting filling parameters.

## Product Overview

### Automatic Filling and Capping Solution

This automatic filling machine is engineered for the precise packaging of various oils and viscous liquids, including lubricant, peanut, blend, and rapeseed oils. By integrating filling and capping into a single, PLC-controlled unit, it streamlines production efficiency for industries ranging from food and pharmaceuticals to cosmetics and pesticides. The system utilizes low-vacuum gravity filling to ensure consistent fill volumes across all bottles, while the adjustable conveyor system accommodates diverse packaging line requirements.

## Technical Specifications

Filling Technology	Low-Vacuum gravity filling
Control System	PLC Program
Transmission Mode	Gyration transmission
Speed Control	Variable speed

## Operational Features

Integrated Functions	Filling, Capping
Conveyor Compatibility	Yes

## Application

### Target Industries

- Oil
- Cosmetic
- Pharmaceutical
- Food
- Pesticide

### Suitable Liquids

- Lubricant Oil
- Peanut Oil
- Blend Oil
- Rapeseed Oil
- Viscous Liquids
