Product Overview

High-Efficiency Mooncake Production

This automatic mooncake forming machine is engineered for the precise and efficient production of mooncakes. Featuring a robust stainless steel construction, it ensures durability and hygiene while offering intelligent control for consistent output. The machine supports customizable molding patterns and adjustable parameters, making it a versatile solution for diverse bakery production environments.

Performance Metrics

Molding Speed

10 pcs/min

Minimum Speed

90 pcs/min

Maximum Speed

Product Weight Range

20g - 300g

Technical Specifications

Model	HY-3555
Rated Voltage	220 V
Power Consumption	150W - 800W

Dimensions and Weight

Contour Dimensions	160cm (L) x 55cm (W) x 143cm (H)
Machine Weight	108 kg

Operational Features

Key Features

- Customizable molding patterns
- Stainless steel construction
- User-friendly control panel
- Integrated wheels for mobility
- Easy disassembly for maintenance

Cake Output Direction

Left Output, Right Output
