Product Overview

High-Precision Oil Filling Solution

This automatic oil filling machine is engineered to meet the rigorous hygiene and accuracy standards required for both edible and industrial oil processing. Designed to handle various viscosities, including peanut, palm, blended, and lubricating oils, the system effectively manages product volatility and prevents surface dripping. With its robust stainless steel construction and integrated control systems, this solution ensures efficient, waste-free operation for high-volume production lines.

Technical Specifications

Suitable Oil Types	Edible Oil, Industrial Oil, Peanut Oil, Palm Oil, Blended Oil, Lubricating Oil
Construction Material	Stainless Steel

Safety & Control

Safety Features

- Emergency stop buttons
- Enclosed filling chambers
- Enclosed safety doors

Control System

Advanced Control Panel • Adjustable Filling Parameters • Integrated Level Sensors
