

# Automatic Orange Juice Extractor

This automatic orange juice machine efficiently extracts juice from oranges. It is designed for commercial use in restaurants, cafes, and juice bars.

## Overview

### Professional Commercial Juicing

This automatic orange juice extractor is engineered for high-efficiency commercial environments such as restaurants, cafes, and juice bars. Featuring a robust design with a transparent housing, it allows operators to monitor the extraction process while ensuring hygiene. The unit combines a high-capacity hopper with an automated squeezing mechanism to deliver fresh juice on demand with minimal manual effort.

## Performance

### Extraction Capacity

**14 pcs/min**

Oranges per minute

## Design & Build

### Key Features

- Transparent housing for process visibility
- Integrated orange hopper
- Automated squeezing rollers
- Self-contained waste collection system
- Dispensing tap for easy serving

### Intended Application

Commercial • Restaurant • Cafe • Juice Bar

### Construction Materials

Stainless Steel, Food-Grade Plastic
