Overview

Automatic Pallet Dispenser & Magazine

This high-performance automatic pallet dispenser is designed to streamline end-of-line packaging and material handling operations. The system integrates advanced group organizing, palletizing, and pallet storage capabilities to automate the stacking and unstacking process. Engineered with a robust PLC-based control system and pneumatic operation, it ensures consistent, reliable performance in demanding industrial environments.

Performance Metrics

Throughput Capacity

15 cartons/min
Minimum Rate

30 cartons/min
Maximum Rate

Noise Level

75 db

Technical Specifications

Standard Pallet Size	1400mm x 1200mm x 160mm
Power Supply	380V AC, 50Hz
Power Consumption	10 kW
Pneumatic Pressure	0.5 - 0.6 MPa
Air Consumption	45 NM3/Hour

System Components

System Modules

- Group organizing & pushing machine
- Palletizing machine
- Pallet storing machine
- Empty pallet conveyor
- Ready pallet conveyor

Control Interface

PLC, Touch Screen, Pneumatic System
