Product Overview

High-Efficiency Paper Lid Production

The YZPLM-60 is a specialized automatic forming machine engineered for the rapid production of high-quality paper lids. It is an ideal solution for manufacturing components for coffee cups, instant noodle containers, ice cream tubs, and various fast-food packaging items. Designed for stability and high output, this machine offers a compact footprint that helps maximize your production floor space while maintaining industrial-grade efficiency.

Technical Specifications

Maximum Production Speed

60 Pcs/Min

Output Speed

Supported Materials

- Single PE Coated Paper
- 250-380gsm Paper Thickness

Lid Size Compatibility

65-125mm Diameter, 15-20mm Height

Operational Details

Power Supply	380V / 50Hz / 3PH
Power Rating	7 KW
Air Consumption	0.4MPa 0.12m3/min

Logistics

Machine Weight	3000 kg
Packing Dimensions	2300 x 1700 x 1900mm

Application

Ideal Applications	Paper Bowl Lids, Instant Noodle Containers, Coffee Cup Lids, Ice Cream Lids, Fast-Food Packaging
