

# Automatic Paper Lid Forming Machine

This automatic paper lid forming machine is engineered for high-speed production of paper lids. The machine ensures consistent quality and tight seals for various container sizes.

## Overview

### High-Efficiency Paper Lid Production

The ZGJ series automatic paper lid forming machine is an advanced, high-performance solution designed for the automated production of various paper containers. Engineered for stability and ease of operation, this equipment is ideal for manufacturing lids for soup bowls, instant noodle containers, and coffee cups. With a compact footprint and high productivity rates, it represents a reliable investment for businesses looking to scale their paper packaging production capabilities.

## Performance Metrics

### Rated Productivity

**50 pcs/min**

Rated Productivity

### Power Consumption

6.5 kw

## Technical Specifications

Paper Cover Diameter	65-125mm
Compatible Paper Weight	280-450 gsm
Power Source	220V/380V, 50Hz
Machine Weight	2800 kg
Working Air Source	0.4MPa, 0.12m3/min

## Logistics

Packing Size	2350 x 1700 x 1850 mm
HS Code	8441309000
