

Automatic PET Bottle Blowing Machine, 600ML Capacity

This fully automatic PET bottle blowing machine is designed for high-volume production. It features robust construction and advanced control systems for precise and efficient bottle manufacturing.

Overview

High-Efficiency PET Bottle Production

The CSD-AL10-600ML is a fully automatic PET bottle blowing machine engineered for high-volume manufacturing environments. It integrates advanced control systems to manage the entire preform loading, heating, stretching, and blowing process with precision. Designed for reliability and consistent output, this unit delivers high-clarity bottles ideal for the beverage, food, and packaging sectors.

Technical Specifications

Automation Level

Fully Automatic

Manufacturing Process

- Automatic Preform Loading
- Precision Heating
- Stretching
- Blowing

Maximum Bottle Capacity

600 ml

Key Features

Performance Highlights

600 ml

Max Capacity

Operational Benefits

High Consistency, High Clarity, User-Friendly Interface, Safety Integrated
