

# Automatic PET Bottle Blowing Machine

This fully automatic PET bottle blowing machine utilizes a two-step process for preform heating and bottle blowing. It is designed for high-volume production, ensuring consistent quality and efficient operation.

## Overview

### High-Efficiency Bottle Production

The CSD-5P(PET) is a fully automatic PET bottle blowing machine engineered for high-volume manufacturing environments. Utilizing a precise two-step process of preform heating and blowing, it ensures consistent bottle quality and operational efficiency. Designed for versatility, it supports a wide range of bottle sizes and shapes, making it an ideal solution for beverage, food, and packaging applications.

## Technical Specifications

### Automation Level

Fully Automatic

### Model Name

CSD-5P(PET)

### Process Type

Two-step (Preform heating and blowing)

## Key Features

### Operational Highlights

- User-friendly control panel for easy parameter adjustment
- Robust construction for long-term durability
- High-volume production capacity
- Consistent quality output
- Minimal maintenance requirements

### Suitable Industries

Beverage, Food, Packaging
