

# Automatic Powder Filling and Sealing Machine

This automatic powder filling machine efficiently packages various powder products with precision. Its stainless steel construction ensures durability and hygiene for use in the food, pharmaceutical, and chemical industries.

## ADDITIONAL IMAGES

## Product Overview

### Versatile Powder Packaging Solution

This automatic powder packaging machine offers a flexible solution for diverse industry needs, capable of adopting mechanical or pneumatic transmission based on your specific material requirements. Constructed from high-quality stainless steel, the machine adheres to strict food production standards, ensuring both hygiene and durability. The system supports multiple bag styles and adjustable measuring capabilities, making it an ideal choice for efficient, precise packaging of everything from food ingredients to chemical powders.

## Technical Specifications

Transmission Options	Mechanical, Pneumatic
Main Material	Stainless Steel
Customization Available	Yes

## Packaging Capabilities

### Supported Bag Types

- Back seal
- Three side seal
- Four side seal

Cutting Styles	Tooth shape, Flat cut
----------------	-----------------------

## Application Suitability

### Typical Applications

- Flour
- Milk powder
- Spices
- Salt
- Seasoning
