

# Automatic Product Wrapping Machine

This high-speed automatic machine efficiently wraps products with precision. It features a stainless steel hopper, rotating indexing table, and a control panel for adjusting wrapping parameters.

## Overview

### High-Efficiency Wrapping Solution

This high-speed automatic packaging machine is engineered for precision and efficiency in product wrapping operations. It features a robust stainless steel hopper and feeding system, ensuring durability and hygiene, alongside a rotating indexing table for seamless product placement. With advanced control panels for fine-tuning speed, temperature, and tension, this machine provides consistent and secure packaging across a variety of product sizes and shapes.

## Technical Specifications

### Construction Material

Stainless Steel

### Key Features

- Automatic high-speed operation
- Stainless steel hopper and feeding system
- Rotating indexing table
- Adjustable film tension control
- Precise temperature settings

## Operational Control

### Control Panel Settings

Speed Adjustment, Wrapping Parameters, Temperature Control

### Suitable For

Various product sizes and shapes
