Overview

Automatic PVC Edge Bander

The KC306 is an automatic edge banding machine designed specifically for MDF furniture manufacturing. It streamlines the production process by automating key functions including gluing, end trimming, fine trimming, scraping, and buffing. Engineered for high-volume environments, this machine ensures consistent quality, durability, and a professional finish on all furniture panels.

Technical Specifications

Feeding Speed

12 m/min
Min Speed

20 m/min
Max Speed

Model	KC306
Panel Thickness	10 mm
Max Panel Thickness	60 mm
Minimum Panel Width	80 mm
Edge Band Tape Thickness	0.4-3mm
Working Air Pressure	0.8 Mpa

Dimensions

Machine Dimensions	3800 x 1000 x 1750 mm
