

Automatic Refueling Heavy Duty Lockstitch Sewing Machine

This heavy-duty lockstitch sewing machine is designed for thick thread applications. It features an automatic refueling system for continuous operation and consistent lubrication, ensuring smooth and reliable performance.

Overview

Heavy-Duty Industrial Performance

This automatic refueling heavy-duty lockstitch sewing machine is engineered for demanding industrial environments. Designed specifically for thick thread applications, it ensures superior stitch quality on tough materials like leather and heavy fabrics. The integrated automatic lubrication system maintains consistent performance during continuous operation, making it a reliable choice for high-volume production.

Performance Features

Machine Class

Heavy Duty • Lockstitch

Lubrication Type

Automatic Refueling System

Suitable Materials

Heavy Fabrics, Leather, Thick Materials

Key Metrics

Operational Efficiency

1 Automatic

Lubrication Status
