

Automatic Shrink Wrap Machine

This automatic shrink packaging machine is designed for wrapping products with heat shrinkable film. It features adjustable sealing and cutting parameters, temperature control, and conveyor speed.

Overview

High-Efficiency Shrink Wrapping Solution

This automatic shrink packaging machine is engineered for precision wrapping of products using heat shrinkable film. It features advanced controls for sealing, cutting, and temperature regulation, alongside adjustable conveyor speeds to accommodate diverse production requirements. Ideal for the food, beverage, pharmaceutical, and cosmetic industries, this system ensures secure and professional packaging for items of varying sizes and shapes.

Technical Capabilities

Automation Level

Automatic • Adjustable

Adjustable Parameters

- Sealing parameters
- Cutting parameters
- Temperature control
- Conveyor speed

Application Suitability

Target Industries

Food, Beverage, Pharmaceuticals, Cosmetics
