Overview

High-Efficiency Sleeve Labeling System

This automatic sleeve label applicator provides precise and stable labeling for various container types including round, square, and irregular shapes. Engineered with a unique cyclotron cut-off system and synchronous bottle distribution, it ensures minimal vibration and maximum cutting accuracy during high-speed operation. Ideal for industries such as food, beverages, cosmetics, and pharmaceuticals, this equipment offers customizable controls and versatile performance to optimize your production line.

Performance Metrics

Production Capacity

450 bottles/min

Max Speed

Technical Specifications

Compatible Label Materials	PVC, PET, OPS
Bottle Dimensions	50-125mm diameter, 100-320mm height
Power Requirements	3KW / 220V / 50(60)Hz
Physical Dimensions	2100 x 1150 x 2000 mm
Machine Weight	400 KG

Model Comparison

Model Speed Comparison

Model	Speed (b/min)
