

Automatic Tilt-Back Tire Changer

This automatic tire changer is designed for efficient tire removal and installation. Its tilt-back column and pneumatic controls facilitate operation on a range of tire sizes.

Product Overview

Efficiency and Durability for Workshops

This automatic tilt-back tire changer is designed to enhance workflow efficiency in professional car workshops. Featuring pneumatic control for column movement and a high-durability tool head, it is engineered for consistent, heavy-duty use. The unit is designed with future-proofing in mind, including an installation port for supplementary helper arms and support for specialized motorcycle rim adapters.

Key Features

Key Capabilities

Pneumatic Tilt-Back, Wear-resistant Steel Head, 40A Universal Switch, Helper Arm Ready, Motorcycle Adapter Compatible

Technical Specifications

Operating Metrics

24 inch

Max Inner Rim Clamping

10 inch

Min Outer Rim Clamping

930 mm

Max Wheel Diameter

10 bar

Max Operating Pressure

Machine Dimensions and Power

Parameter	Value
Motor Power	0.75/1.1 kW
Noise Level	<75 dB
Net Weight	230 kg
Gross Weight	270 kg
Packing Dimension	980x760x1010 mm
