

Automatic Tube Filling and Sealing Machine

This automatic machine is designed for filling and sealing various tubes. It features stainless steel construction, a filling hopper with level control, touch screen control panel, and safety guarding.

Overview

High-Efficiency Tube Processing

This automatic tube filling and sealing machine is engineered for precision and reliability in packaging operations. Featuring robust stainless steel construction, it ensures durability and hygiene for various industrial applications. The intuitive touch screen control panel allows for seamless operation, while integrated safety guarding provides a secure working environment for operators.

Technical Specifications

Compatible Tube Materials	Plastic, Laminate, Aluminum
Build Material	Stainless Steel

Features

Control System

Touch Screen

Filling System Capabilities

- Integrated filling hopper
- Automatic level control
