Product Overview

High-Efficiency Monoblock Solution

This fully automatic stainless steel filling machine integrates washing, filling, and capping into a single, compact monoblock frame. Designed for precision and reliability, it utilizes a PLC-controlled system with advanced touchscreen operation to ensure stable production speeds. Its hygienic design and durable construction make it an ideal solution for large-scale pure water and non-carbonated beverage bottling facilities.

Technical Specifications

Performance Capacity

4000 BPH

Max Capacity (Model CGF12)

6000 BPH

Max Capacity (Model CGF18)

10000 BPH

Max Capacity (Model CGF24)

14000 BPH

Max Capacity (Model CGF32)

Model Configurations

Model	Washing	Filling	Capping
CGF12-12-4	12	12	4
CGF18-18-6	18	18	6
CGF24-24-8	24	24	8
CGF32-32-10	32	32	10

Operational Details

Certifications

CE Certified

Applicable Materials

Mineral water, Wine, Non-carbonated water, Plastic bottles (500ml-1.5L), Plastic screw caps

Key Features

Operational Highlights

- Compact monoblock design combining washing, filling, and capping
- PLC control system with intuitive touch screen interface
- One-person operation capability
- Adjustable filling levels and capping torque
- No bottle, no filling safety mechanism
- Hygienic stainless steel 304 filling valves
