

Automatic Weighing and Carton Sealing Machine

This automatic weighing and packaging machine is designed for high-volume carton sealing. It features adjustable conveyor belts, automatic flap folding, and tape application for efficient and secure packaging.

Overview

Integrated Packaging Solution

This automatic weighing and carton sealing machine provides a streamlined, high-efficiency solution for industrial packaging needs. By combining precise weighing capabilities with automated carton sealing processes, it significantly reduces manual labor and improves consistency. Designed for durability and versatility, this system is suitable for various carton sizes and weights, making it an ideal choice for high-volume production environments.

Key Features

System Capabilities

- Automatic weighing integration
- Automated carton flap folding
- Precision tape application
- Adjustable conveyor belt system
- Industrial-grade construction

Compatible Product Types

Oil, Liquid, Paste
