Product Overview

Professional Wine Aeration and Dispensing

This patented electric wine aerator and dispenser is designed to elevate the wine service experience by combining aeration and precise pouring in one device. It instantly aerates wine as it is dispensed, enhancing flavor profiles while ensuring a clean, spill-free pour. With its user-friendly design and compatibility with standard wine bottles, it is an ideal solution for both hospitality environments and home use.

Technical Specifications

Power Source	4 x AAA Alkaline Batteries
Dispensing Capacity	30 bottles
