

Automatic Wire Stripper with Adjustable Diameter

This automatic wire stripper is designed for stripping insulation from electrical wires. It features hardened steel blades and an adjustable stripping diameter for different wire gauges.

Product Overview

Professional Automatic Wire Stripper

This high-performance automatic wire stripper is engineered for precision and durability in electrical work. It features an adjustable stripping diameter, making it compatible with a wide range of solid and stranded wire gauges. Designed for comfort and efficiency, the tool incorporates an ergonomic handle and a spring-loaded mechanism to minimize hand fatigue during repetitive use.

Technical Specifications

Key Features

- Adjustable stripping diameter
- Hardened steel blades for precision
- Ergonomic handle design
- Spring-assisted operation

Blade Material	Hardened Steel
Compatible Wire Types	Solid, Stranded
Operation Mechanism	Spring-loaded
