

Automatic Wire Stripping and Crimping Tool

This automatic tool simplifies the process of stripping and crimping wires. It features hardened steel blades for durability, a single-motion action, and integrated wire cutters.

Overview

Professional Wire Stripping and Crimping Solution

This automatic wire stripping and crimping tool is engineered for efficiency and precision in electrical installation tasks. Featuring a durable, heavy-duty construction with hardened steel blades, it simplifies the stripping process for both flat and round cables. The tool integrates stripping, cutting, and crimping capabilities into a single-motion action, making it an essential addition to any professional toolkit.

Performance Metrics

Stripping Capacity

0.2 mm²
Min Stripping

6 mm²
Max Stripping

Crimping Capacity

0.5 mm²
Min Crimping

8 mm²
Max Crimping

Cutting Capacity

10 mm²

Construction & Design

Key Features

- Single-motion action for efficiency
- Compatible with flat and round cables
- Integrated wire cutter
- Heavy-duty construction

Material Composition

Hardened Steel Blades, Alloy Steel Jaws
