

Automobile Air Conditioning Condenser

This automobile condenser is designed for efficient heat exchange in automotive air conditioning systems. Constructed with durable aluminum, it features a parallel flow design for optimal cooling performance.

Product Overview

High-Efficiency Automotive Condenser

This automobile air conditioning condenser is engineered for efficient heat exchange and reliable cooling performance in automotive climate control systems. Constructed with durable aluminum and utilizing a parallel flow design, it maximizes surface area for optimal airflow and heat dissipation. Designed to meet strict quality specifications, this unit ensures a precise fit and straightforward installation for vehicle AC maintenance and repair.

Technical Specifications

Core Size

710 mm
Length

413 mm
Width

16 mm
Depth

Packaging Dimensions

757 x 84 x 456 mm

Reference Number

88-73011

Compatibility

Compatible Vehicle Model

SHUAIKE
