Product Overview

High-Performance HVAC Assembly

This automobile air conditioning and heater radiator core assembly is engineered for efficient climate control and temperature regulation within vehicle cabins. Designed with durable materials and subjected to rigorous 100% quality testing, this unit ensures reliable, long-lasting performance for various automotive applications. It is an essential component for maintaining optimal heating and cooling capabilities in both commercial and passenger vehicles.

Technical Specifications

Quality Assurance

100% Tested • Qualification Tested

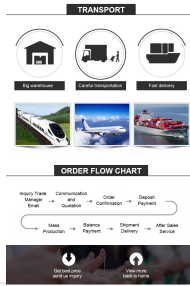

Main Material	Plastic
Refrigerating Capacity	4 kW
Heating Capacity	4.5 kW
Dimensions	455.8 x 345 x 395 mm

Compatibility

Compatible Vehicle Models

- SINOTRUK Haixi 011-2080

Service & Support

Our streamlined order flow ensures clear communication from inquiry to final delivery.

Order Flow

Step	Action
1	Inquiry & Quotation
2	Order Confirmation
3	Deposit Payment
4	Mass Production
5	Balance Payment
6	Shipment & Delivery
