

Automobile Engine for Optimal Performance

This automobile engine is designed for optimal performance and reliability. It features precision-engineered components to ensure long-lasting durability and efficient power delivery.

Overview

High-Performance Diesel Engine

This 4-stroke diesel engine is engineered for reliable performance and durability in automotive applications. Featuring a 4-cylinder, water-cooled design, it is built to deliver consistent power output under various operating conditions. This unit is an ideal solution for professional mechanics and automotive projects requiring a robust and efficient power source.

Technical Specifications

Engine Model	4JB1
Engine Type	4-Stroke, Diesel, 4-Cylinder, Water-cooled
Displacement	997 L
Start Method	Electric Start

Performance Metrics

Key Performance Metrics

200 kw Rated Power	360 A Rated Current	400 V Rated Voltage
Operating Speed	1500/1800 RPM	
Frequency	50/60 Hz	

Physical Dimensions

Dimensions and Weight

Attribute	Value
Length	1209.7 mm
Width	662 mm
Height	884.5 mm
Weight	555 kg

Logistics and Warranty

Warranty

1 Year Warranty

Shipping Recommendations

- Sea freight recommended for cost efficiency due to heavy weight
- Air freight available for single units
- Lead time: 1 week for standard stock
- Lead time: 20-40 working days for large orders or non-regular models
