

# Automobile Engine Intake Manifold

This automobile engine intake manifold distributes the air-fuel mixture to the cylinders. It is constructed from lightweight aluminum alloy for thermal conductivity and durability.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Intake Manifold

This automobile engine intake manifold is engineered to efficiently distribute the air-fuel mixture to engine cylinders, a critical component for optimizing combustion and power delivery. Constructed from durable, lightweight materials, it features precisely engineered intake runners to ensure uniform cylinder filling and enhanced airflow. Designed for 3.5L petrol engines, this manifold provides long-lasting reliability and performance under demanding operating conditions.

## Technical Specifications

Engine Compatibility	3.5L Petrol
Material	PA66-GF30
Dimensions (L x W x H)	450 x 360 x 305 mm
Part Number	XTJ-070
Finish Color	Silver

## Logistics & Compliance

### Warranty

**12 months**

Warranty Period

Certifications	ISO/TS16949
Minimum Order Quantity	10 pcs
Delivery Time	Within 30 Days
