

# Automobile Heater Core

This automobile heater core is designed for efficient heat transfer. It features a compact core with horizontal fins and durable construction for reliable performance.

## ADDITIONAL IMAGES

## Overview

### High-Efficiency Automotive Heater Core

This replacement heater core is engineered for optimal thermal transfer, ensuring reliable cabin heating performance. Designed with a compact, durable architecture, it features a high-density fin structure to maximize heat dissipation efficiency. Built to withstand rigorous automotive operating conditions, this unit provides a precise fit for long-lasting reliability and airtight sealing.

## Technical Specifications

### Core Dimensions

**122 mm**  
Height

**194 mm**  
Width

**18 mm**  
Depth

### Vehicle Compatibility

Vehicle Model	Model Year
KIA PICANTO	2012

### Reference Identifiers

- TS No.: 6282037
- DPI: 6282037

## Features

### Key Features

High-density fins, Compact design, Airtight gasket seal, Efficient heat transfer
