

Automobile Radiator Fan Assembly

This radiator fan assembly is crucial for maintaining optimal engine temperature and preventing overheating. It is designed for direct mounting to the vehicle's radiator assembly, ensuring proper alignment and airflow direction.

Product Overview

High-Efficiency Cooling Assembly

This radiator fan assembly is engineered for reliable engine cooling, featuring an aerodynamic multi-blade design and an integrated electric motor for optimal thermal management. The unit is designed for a direct-fit installation, ensuring proper airflow alignment with the radiator to prevent engine overheating. Built with durable materials, these components provide essential performance stability for demanding automotive operating conditions.

Compatibility

Vehicle Fitment

- Peugeot 206
- Peugeot 307
- Peugeot 306
- Peugeot 405
- Peugeot 301
- Citroen C2 (2003-)
- Citroen C3 (2002-)

Part Reference

OEM Reference List

Component Type	Part Number(s)
Radiator Fan	125391, 1253K2, 125387, 1253H3, 1253C6, 9801559180
Electric Motor	125315, 1250C3, 15-8429
Blower	6441K0
