Overview

High-Efficiency Automotive Cooling

This automotive air conditioning compressor is specifically engineered for the Passat B5, providing reliable and efficient refrigerant circulation. Built for durability, it ensures optimal cooling performance to maintain a comfortable cabin environment even in demanding conditions. The unit features a robust 4PK clutch assembly and is designed for seamless integration with R134a refrigeration systems.

Technical Specifications

Operating Voltage

12 V

Voltage

Refrigerant Type

R134a

Lubrication Details

- Oil Type: PAG46
- Oil Capacity: 100±10 cc

Clutch & Pulley

Code:FIN7SBU
Refrigeration: R134a
Voltage: 12V
Clutch: 4PK/120mm
Applicable: Passat B5
Factory Code: FIN7SB16101
OEM NO.: 8D0260805B

Detailed technical parameters including 120mm pulley diameter and 4PK groove configuration.

Pulley Diameter	120 mm
Groove Configuration	4PK

Identification & Compatibility

Product Identifiers

Identifier Type	Value
OEM Number	8D0260805B
Factory Code	FIN7SB16101
Product Code	FIN7SBU

Compatible Models	Passat B5
