

Automotive Air Conditioning Condenser

This high-performance condenser is designed for automotive air conditioning systems, efficiently dissipating heat to ensure optimal cooling performance. Its durable construction provides long-lasting reliability and resistance to corrosion, while its compact design ensures easy installation and broad compatibility with various vehicle models.

Product Overview

High-Performance Automotive Condenser

This automotive air conditioning condenser is engineered for efficient heat dissipation, ensuring optimal cooling performance and passenger comfort. Constructed from durable, corrosion-resistant materials, it offers long-lasting reliability for demanding automotive environments. Designed for easy installation, this unit effectively converts high-pressure, high-temperature refrigerant gas into a high-pressure liquid, making it a critical component for your vehicle's AC system.

Technical Specifications

Core Size	622 x 431 x 16 mm
OEM Reference Number	92100-JG000
Cross Reference (Nissens)	88-73034

Compatibility

Compatible Vehicles	X-Trail (T31), 2.0 i 16V
Model Years	2007 onwards

Logistics

Carton Size	727 x 46 x 462 mm
