Product Overview

High-Performance 24V Alternator

This automotive alternator is engineered to provide a stable and reliable power supply to heavy-duty vehicle electrical systems. Designed for both original equipment and aftermarket applications, it features a robust metallic housing and an integrated cooling fan to ensure efficient heat dissipation and long-term durability. Its compact design allows for straightforward installation, making it an ideal choice for demanding automotive environments.

Electrical Specifications

Rated Current

35 A

Output Current

Voltage

24 V

Mechanical Specifications

Pulley Configuration

1Z-69

Compatibility & References

Cross Reference Part Numbers

- 0120489707
- 0120489730
- 0120488224

Application Compatibility

24V Systems, Automotive, Heavy Duty
